

Questions 31–40

Complete the notes below

Write **ONE WORD ONLY** for each answer

Ancient cave art symbols

The most common symbols include:

- simple shapes, e.g. dots and a **31**
- more complex shapes, e.g. a wavy line to represent a **32**

How the hand symbol was made

- The paint was made by mixing charcoal with **33** and saliva.
- The paint was applied using something similar to a **34**
- Applying paint made an unusual **35** and also caused lightheadedness.

The importance of the symbols:

- Researchers are developing a database to help identify any patterns.
- The symbols are likely to be a **36** used by different groups.
- A sequence of five of the symbols has been found on cave walls in Spain and on a **37** made from a deer's teeth.

What researchers disagree about

- Some researchers say the symbols were part of the 'Great Leap Forward' which also included innovations such as the first **38**
- Others say the discovery in Africa of earlier artefacts such as types of **39** disproves the theory.
- It is likely that some art painted on **40** did not survive.

31. **Triangle**
32. **Horse**
33. **Fat**
34. **Straw**
35. **Noise**
36. **Code**
37. **Necklace**
38. **Boat**
39. **Arrows**
40. **Wood**
